

THE ALCHEMY OF MODERN FINANCE

Transforming illiquid, idiosyncratic assets into standardised, institutional-grade tradable securities.

State of the Asset

The Raw State

Nature:	Idiosyncratic (Bespoke risks, no common basis for comparison)
Visibility:	Opaque (Complex individual contracts, unclear governance)
Status:	Illiquid (Cannot be traded at scale)
Result:	Inaccessible (Locked 'Capital Traps' invisible to global markets)

The FE Engineered State

Nature:	Modelled (Statistically predictable cash flows via PPAs)
Visibility:	Transparent (Legally ring-fenced, standardised prospectus)
Status:	Tradable (Processable by Euroclear, DTC, and SWIFT)
Result:	Institutional-Grade (Ready for global capital pools)

Real-world assets hold immense value in theory, but remain unreachable in practice. FE Corporation exists to convert these raw assets into global capital market instruments.

Raw
Revenue-Generating
Asset

Raw
Revenue-Generating
Asset

Engineering
Predictability

Transforming uncertain
revenue into highly
predictable cash flows via
statistical modelling and
credit enhancement.

Forging
Securability

Creating bankruptcy-remote
SPVs for clean, exclusive
legal claims isolated from
originator risk.

Imposing
Standardisation

Assigning universal capital
market language—ISIN codes,
S&P/Moody's/Fitch ratings,
and standard documentation.

Tradable
Security

Tradable
Security

This is the alchemy of modern finance – the engine that powers global capital markets.

Forging Securability: The Liquidity Unlocker Model

The Firewall

Bankruptcy-Remote SPV

Institutional Investors
(Clean, Exclusive Legal Claims Shielded)

Clearing:
Integration with DTCC, Euroclear, and SWIFT.

Treasury:
U.S. Treasury instrument integration.

Documentation:
Wall Street and Harvard Law-standard legal structures.

Comprehensive Financial Engineering Capabilities

Financial Instruments & Capital Structures

MTN Monetisation & Structured Finance

Multi-billion-dollar DTCC-based collateral structures, converting bank-held instruments into deployable capital (e.g., Al Rajhi Bank, HSBC, SNB).

Islamic Finance & Sukuk

Shariah-compliant capital markets, dual listings (Tadawul/LGX), USD 1.55B+ Sustainable Aviation Fuel (SAF) experience.

Insurance-Backed Securitisation

Converting illiquid infrastructure debt into tradable instruments under Solvency II and PRA frameworks.

Physical & Sovereign Real Assets

Infrastructure Project Financing

Large-scale port, energy, and real estate development financing with long-dated cash flows across emerging markets.

Rare Earth Elements & Mining Finance

Specialised valuation and financing structures for strategic minerals in priority supply-chain jurisdictions (e.g., South Sudan).

Cross-Border Investment Structures

Sovereign-level partnerships and regulatory navigation spanning North America, GCC, and Africa.

The Flow of Value: A Multi-Continental Triad

Sovereign-Scale Execution

66.8M Hectares

Africa's largest cooperative-based agricultural land bank (Kenya & Tanzania), structured via 1,653 notarised cooperatives and 408,314 farmers.

\$20B Julius Nyerere Airport

Structured the largest single infrastructure FDI for the expansion via CGGC in Tanzania.

\$500M Shimoni Integrated Port JV

A 30-year joint venture (60/40 equity) with Kenya's Coast Development Authority.

The Architects of Liquidity

Clinical Science & Regulation

Dr. D.K. MacFadden
(MDCM, FRCPC, PhD)

Medical pioneer, Univ. of Toronto Assistant Prof., FDA 510(k) regulatory pioneer. Brings unassailable scientific rigour and regulatory mastery.

Quantitative Mastery

Prof. Hélyette Geman
(PhD, PhD, MS)

2022 Financial Engineer of the Year, Johns Hopkins Research Prof., co-developer of CGMY Lévy process, coined 'numéraire'. Brings world-class mathematical modelling and valuation.

The FE Corporation Moat

This specific combination of medicine, mathematics, and global structuring makes the methodology virtually impossible to replicate.

Global Deal Structuring

Gareth Wiggan (Managing Partner)
Architect of the \$20B CGGC infrastructure FDI and 66.8M hectare land bank, GCC sovereign negotiator. Brings relentless ground-level execution and cross-border deal making.

Landmark Innovations & Regulatory Firsts

FDA 510(k)

[Regulatory Pioneering]

First U.S. FDA clearance & Health Canada licensing for the Genua Menopause Monitor (OTC diagnostic technology).

USD 1.55B SAF Sukuk

[Islamic Finance]

Engineered the ReFly sukuk for a Sustainable Aviation Fuel project with dual Tadawul (Saudi) and LGX (Luxembourg) listings.

Real Estate & Material Assets

[Valuation Architecture]

Developed the AHAC Quotation Strategy for Sheikh Al Nahyan properties (increasing LTV by 25%). Authored 'The Valuation of Cement'—the industry reference standard.

NEOM Sanctuary Proposal

[Resilience Infrastructure]

Structured innovative civilisational resilience infrastructure and bond financing architecture for Saudi Arabia's flagship Vision 2030 mega-project.

Land Asset Mobilisation

Transforming fragmented smallholder agricultural lands into aggregated, sovereign-scale production zones through legal cooperative formalisation.

Insurance Innovation

Advanced securitisation of illiquid project debt, perfectly aligning long-dated cash flows with institutional investor mandates under Solvency II and PRA guidelines.

Sovereign-Level Partnerships

Direct engagement and notarised mandates with GCC royalty, East African ministries, and international development authorities to facilitate unprecedented capital deployment.

The North American Institutional Bridge

GCC Capital Hunt

Sovereign wealth funds are actively seeking NA co-investment partners for infrastructure and tech.

African Yields

East African infrastructure presents once-in-a-generation risk-adjusted returns once structurally de-risked by FE's methodology.

Municipal Channels

Advanced PAB (Private Activity Bond) and green bond structuring capabilities opening new NA municipal finance channels.

Alternative Demand

Surging North American institutional demand for highly structured, non-correlated alternative asset classes.

Regulatory Trust

FE's Canadian corporate base and Global Affairs Canada relationships provide an unimpeachable anchor for offshore deal origination.

Let's Build the Future of Capital Markets

FE Corporation is actively seeking North American institutional partners, family offices, and pension funds to co-invest in our structured finance pipeline.
